Scrum Team Quiz

One of the 13 tested categories on the Scrum Master exam is 'Scrum Teams.'

The following questions will give you an idea of the scope and difficulty of these exam questions.

Question 1

> How many developers should there be on a Scrum Team that has a full-time Scrum Master and a full-time Product Owner?
>
> ☐ 10 or less
>
> ☐ There is no suggested, upper limit on how many developers should be on a Scrum Team
>
> ☑ 8 or less
>
> ☐ 5 or less
>
> ☐ 7 plus or minus 3

C

A Scrum Team should have 10 or less members, which includes the Scrum Master and Product Owner. That leaves room for 8 developers.

"The Scrum Team is small enough to remain nimble and large enough to complete significant work within a Sprint, typically 10 or fewer people. In general, we have found that smaller teams communicate better and are more productive." -The Scrum Guide, page 5

Scrum Teams

Question 2

> A Scrum Team:
>
> ☐ Can share their Scrum Master only with teams working on the same project
>
> ☑ Can share their Scrum Master with other teams
>
> ☐ Must have a Scrum Master who is committed to it 100% of the time
>
> ☐ Can have more than one Scrum Master

B

There is no rule that says a Scrum Master can only work on one team. Many teams, working on many different projects can share a Scrum Master. Whether that is a good system to use is up to the team and the organization to decide.

Question 3

> How big a development team is always a controversial topic. According to the Scrum Guide, a Scrum Team:
>
> ☑ Should be small enough to remain nimble
>
> ☑ Large enough to complete a significant amount of work
>
> ☐ Be 7 or fewer people
>
> ☐ Never share the Scrum Master or Product Owner with other Scrum Teams
>
> ☑ Reorganized into smaller teams when they become too large

ABE

The Scrum team should be small enough to respond to change easily but big enough to get work done.

And when a team grows too big, which is more than 10 people, it should be reorganized into smaller groups.When teams are reorganized, they will share the same Product Owner if they are working on the same product.

"The Scrum Team is small enough to remain nimble and large enough to complete significant work within a Sprint, typically 10 or fewer people.

In general, we have found that smaller teams communicate better and are more productive.

If Scrum Teams become too large, they should consider reorganizing into multiple cohesive Scrum Teams, each focused on the same product.

Therefore, they should share the same Product Goal, Product Backlog, and Product Owner." -The Scrum Guide, page 5
